Florida's recycling goal was established in 2008. How are we complying with the statute?

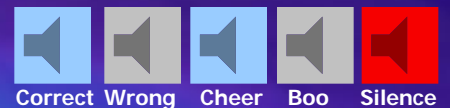

**JEOPARDOY**

What are the  
program  
components of the  
75% recycling goal?

Start Timer

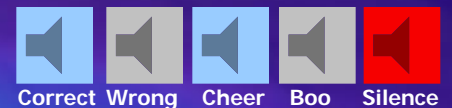

**JEOPARDOY**

Is the 75%  
recycling goal  
reasonable –  
and if not, what  
should it be?

Start Timer

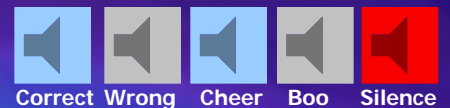

**JEOPARODY**

What does and  
does not contribute  
to our recycling  
goal and why?

Start Timer

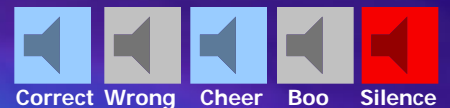

**JEOPARDOY**

What are the biggest  
obstacles associated  
with recycling and  
how are we  
addressing those  
obstacles?

Start Timer

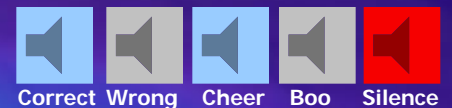

**JEOPARDY!**

Elevated temperatures and fires are a concern for operators of landfills and nearby residents and businesses. How big of a problem is it in Florida and what can we do about it?

Start Timer

**JEOPARODY**

Florida has evaluated the feasibility of a state-wide bag ban. Plastic bags are known to be harmful to the environment and interfere with recycling equipment. Many states have a plastic bag ban - what's being done in Florida?

Start Timer

**JEOPARDOY**

Correct

What are the  
biggest obstacles  
to composting  
with biosolids?

Start Timer

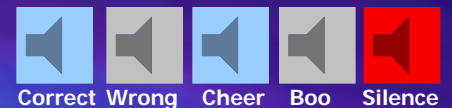

**JEOPARODY**

Sustainable materials  
management - what  
does it mean and how  
does the concept relate  
to waste management  
and recycling?

Start Timer

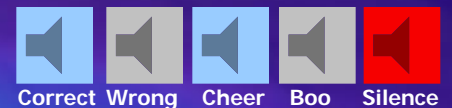

**JEOPARDOY**

Perfluorinated chemicals (PFOS and PFOA) and other emerging contaminants are in the news. Are they a problem in our waste stream and how are they impacting waste management in Florida?

Start Timer

**JEOPARDOY**

**LINERS** - Liners are designed to prevent leakage from landfills. We know that from time to time, liners leak. What are the reasons that liners do not always perform as designed?

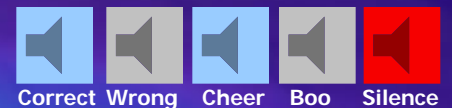

**JEOPARDOY**

**LANDFILLS** - Potential risks to human health and the environment from disturbing old disposal sites are often not well understood - What issues should be considered when developing over a former landfill and what regulations govern?

**JEOPARODY**

LEACHATE - What's  
the trend for  
managing leachate  
from landfills?

Start Timer

**JEOPARDOY**

**LITIGATION** - What is the  
status of the legal  
challenge to FDEP's new  
Cleanup Target Levels?

Start Timer

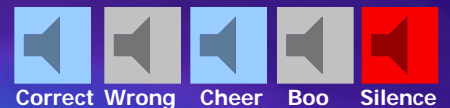

**JEOPARDOY**

**LEGISLATION** - Can you  
provide an update on  
upcoming changes  
being considered for  
recycling legislation in  
Florida?

Start Timer

**JEOPARDOY**

If I need to find out  
information about a  
site and obtain site  
documents, who  
should I call?

Start Timer

FDEP has six regional districts and the Division of Waste Management in Tallahassee - what are their respective duties and when do you call one and not the other?

Start Timer

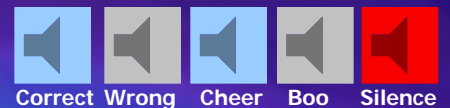

**JEOPARDY!**

What do you have to  
report under  
Florida's new "Notice  
of Pollution" Statute?

Start Timer

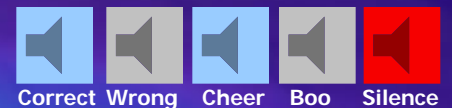

**JEOPARDOY**

I have a site where RSM from a C&D facility is being generated and we want to use the RSM for beneficial use. Who do I call and what's the procedure to obtain FDEP approval? At another facility, I'd like to use an alternative daily cover, who do I call for that?

Start Timer

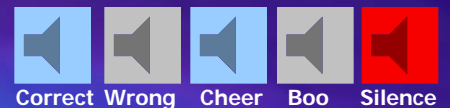

**JEOPARDOY**

I'd like to use an  
alternative closure  
system at a landfill site  
and am considering  
ClosureTurf™ - what  
should I do?

Start Timer

**JEOPARDOY**

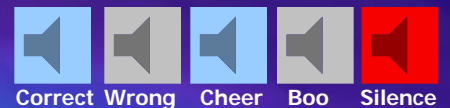

Why recycle if  
it's not  
economically  
feasible?

Start Timer

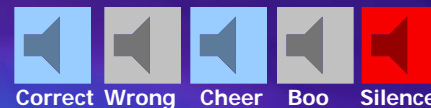

**JEOPARODY**

Contamination, or non-recyclables, in the inbound stream is a major problem impacting the environmental and economic sustainability of recycling. How can we work together on this issue?

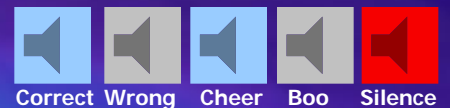

**JEOPARODY**

What materials should we  
be collecting from an  
environmental and  
economic standpoint  
given more demanding,  
and shrinking, end  
markets for recyclables?

Start Timer

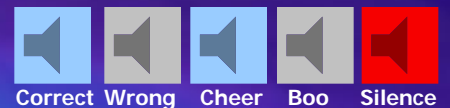

**JEOPARODY**

Is there a way to grow or influence end markets for recyclables? Or encourage the use of more recycled feedstock in the manufacture of new products?

Start Timer

**JEOPARODY**

How will China's  
"National Sword"  
Policy impact  
recycling markets?

Hurricane Irma made  
landfall in Florida on  
September 10th. What  
impacts has the debris  
had on Florida's waste  
management  
resources?

Start Timer

**JEOPARDY!**

I placed a large amount of  
vegetative debris from  
Hurricane Irma out by the  
roadway, who is  
responsible for picking it  
up and when will  
everything be gone?

Start Timer

With all the flooding in Florida, were there any impacts to the environment from contamination associated with contaminated sites or industrial facilities?

Start Timer

**JEOPARDOY**

Hurricane Irma caused extensive flooding. There are millions of cubic yards of construction debris, including drywall that decomposes into H<sub>2</sub>S gas emanating that rotten egg smell. What's the best way to handle all that drywall?

Start Timer

**JEOPARODY**

Correct
